The personal number is a mandatory item only for citizens of the Czech Republic. These citizens will now be identified on the basis of their name, surname and personal number, so care must be taken to ensure that these details are filled in correctly. Foreigners leave this field empty.

When entering the address, please proceed as described below. Only values selected from the drop-down menu are accepted. If you simply type the text, the form will not be saved. Similarly, it will not be saved if you confirm the menu from the browser history (the value is offered immediately after entering the item, before you start typing any characters). This is particularly frequent in the Google Chrome browser. If it is not possible to select the values from the drop-down index according to the procedure below, please try changing your browser - Mozilla Firefox, Microsoft Edge, Internet Explorer or clear your browser history.

In the Main place of residence in the Czech Republic section, you need to start by filling in the City.

After entering the first letters of the city name, select the city from the drop-down menu.

Město / City

- Bernardov (Středočeský kraj)
- Bernartice (Olomoucký kraj)
- Bernartice (Středočeský kraj)
- Bernartice (Jihočeský kraj)
- Bernartice (Královéhradecký kraj)
- Bernartice nad Odrou (Moravskoslezský kraj)
- Bernartice (Středočeský kraj)

Continue by typing the first letters of the street in the city and select the street from the drop-down menu. Please only select a street from the menu if it exists in the town, otherwise, leave the field blank.

Ulice /Street

- Malešická
- Malešické náměstí
- Malebná
- Malešovská
- Malenická
- Maletická
- Malešický park

Select the house number from the drop-down menu according to the same principle as the city and street.

Číslo popisné, číslo orientační / Land registry number, house number

- 2706/12
- 2707/12a

The form also includes a section about travel companions, family members under the age of 18. It is necessary to fill in travel companions in the form, but only if they are family members under the age of 18. They do not fill in their own form, but are part of the form filled in by the adult.

Please fill in the telephone number field accurately. The telephone number may be entered with or without the area code (e.g. +420, 00420), and with or without spaces (XXX XXX XXX, XXXXXXXXX). If you wish to view the completed form again via the web link, you will need to have a verification SMS sent to the above number, which you will then type into your web browser to view the form (more information below).

After completing the data, the CAPTCHA must be confirmed before sending the form.
