

# Coordination of ICD-11 implementation by Eurostat

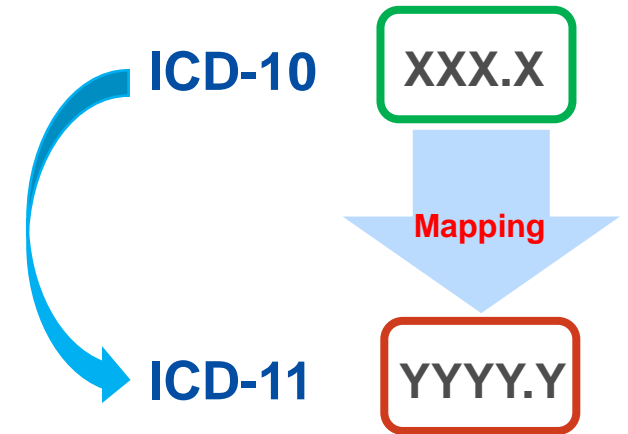

Teleconference seminar - WHO-FIC Standards and their implementation in European countries – Experience, Strategies, Approaches and Lessons Learned

13 October 2022

*Izabela Ammermann, Eurostat*

# Preparatory work...

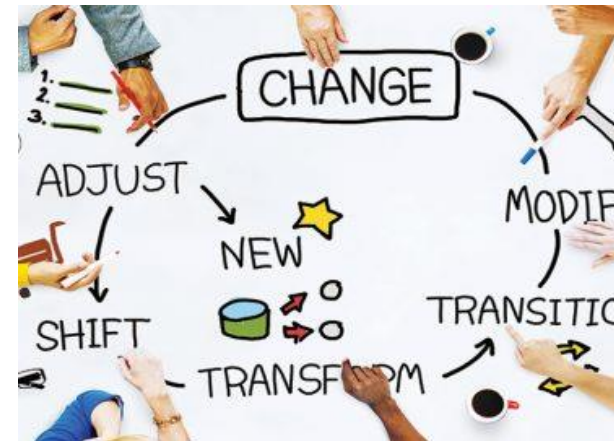

- Liaising with WHO
- Meeting with IRIS Group to discuss ICD-11 transition plans
- Analyzing structure and changes in ICD-11 together with possible impact on data treatment and dissemination.

# EU survey goal and design

- Gain insight in needs, plans and barriers for mortality coding
- Online survey: 30 September – 24 October 2022
- Sent to 36 reporting countries
- Please remember to reply!!! If you did not receive our email please contact us ([estat-causes-of-death@ec.europa.eu](mailto:estat-causes-of-death@ec.europa.eu)).

# 'To do' list

- Adapting Eurostat's internal system and data flow to accommodate the step-wise transition process
- Existing database
  - Transcoding to ensure comparability and time series
- European shortlist used to classify data on causes of death must be adapted
- Liaison with countries advancing in national ICD-11 implementation to share the experience.

# Thank you
